Introduction to Mindfulness Groups

Evening groups Winter 2020

The evening group in Olingen will be resumed in January 2020

Small groups with focus on practical meditation exercises, breathing exercises, exercises in focusing on yourself and theoretical understanding of mindfulness. After the course you will be able to apply the methods easily in your daily life.

We are meeting 6 times two hours over a period of 3 months. The price is 290 Euro

The introduction to mindfulness groups are repeated 1-2 times yearly. Please find details on the next groups on www.EMCoaching.lu

In case you would like to form your own group on mindfulness, I would enjoy being your facilitator. You have to be minimum 4 persons, maximum 8. Format according to your wishes

Mindfulness practiced has scientifically proven side effects like less stress, more calm, better concentration, better sleep, less pondering about things, more joy in your life. To get these results daily practice is needed: 2 times 10 minutes every day makes a measurable difference after 2 weeks

Mindfulness is first and foremost awareness. Focusing on the present, on 'what is', and breathing gives room for peace and space to being with your thoughts, feelings and sensations.

The goal being to obtain nonjudgemental awareness of what happens in your self and the ability to choose how to react to feelings and circumstances.

To read about mindfulness is like trying to taste the food at a restaurant by reading the menu. In order to feel the advantages of awareness and presence, you have to try it out yourself.

MINDFULNESS

is a state of active, open attention
on the present

**Instead of letting your life pass you by,
mindfulness means living
in the moment and
awakening to
experience**
